

AUTOMOTIVE

COMPONENTS AND SERVICES

Welcome to the September edition of the RDM Automotive newsletter. This month we feature some of the many products available from the company. Please contact us for pricing and delivery information.

RDM welcomes enquiries for design work, existing products or new product development. We can design, develop and manufacture electronic control units, wiring harnesses, electrical systems, plastic vacuum parts, mechanical systems etc.

RDM supplies a complete range of reverse sensor kits including systems with built in COLOUR cameras.....

Complete reversing and parking sensor kit providing exceptional value for money. Features: 3.5" TFT Colour monitor, on screen distance display, audio warning, night vision bumper camera, 1/3" CMOS lens, 20mm reversing sensors with hole cutter included.

High quality OEM Style reverse sensor kits.....

Complete kit with audible and visual distance feedback.

Plug in electrical towing kits for a wide range of cars and commercial vehicles.....easy to fit, no cutting, CAN based vehicles covered.

Digital Video recorders....

A new product from RDM is an in vehicle mounted digital video recorder. In the event of an accident the internal shock sensor signals to the system to permanently record the last 30 seconds of video onto a memory card which can then be removed and replayed using a PC. The system can also be used to

record in manual mode. Great if you need to prove that the accident was not your fault !!

RDM's folding side step for Ford Transit.....
